

Imagine the most flexible infrared cameras, imagine working at Xenics.

We're currently looking for...

Technical Support Engineer

To support its North American head office in Boston, MA

Xenics is a steadily growing high-tech company, offering infrared cameras and detectors to the global scientific, industrial and security markets for infrared imaging. Our products are based on our own state-of-the-art semiconductor technology. This year we are celebrating our 10th anniversary.

Function description

You will be involved in the technical support of our products, which are sold by a well established network of sales representatives all over the US and Canada. After training in Belgium you will be part of an international team of experts. In addition you will learn about infrared applications across the entire infrared spectrum (from short-wave over mid-wave to long-wave) but also covering a wide range of applications such as: Scientific, Space, Government, Industrial, Security, etc.

Your tasks will include the following:

- Become technical expert, from a user's point of view with all our cameras such that you can effectively support sales representatives and clients.
- Regular interaction with your counterparts in Belgium who will assist you and keep you up-to-date on new products and applications.
- Assist sales manager with demos, special applications, trade show support.

Xenics nv • Ambachtenlaan 44 • BE-3001 Leuven • Belgium
T +32 16 38 99 00 • F +32 16 38 99 01 • sales@xenics.com

Profile

- You have a Bachelor or Master's degree in Electrical Engineering or similar industrial experience;
- Good knowledge of digital cameras, especially infrared cameras;
- Good knowledge of LabView, Visual Basic, C++, LINUX;
- Strong interest to technically support sales representatives and clients by phone and email.
- Strong interest to work in a growing international company with daily technical interactions with your colleagues in Belgium;
- The Xenics environment requires a good team player with competent communication and reporting skills;

Offer

We offer an excellent salary with outstanding benefits and the opportunity to participate in the success of a unique high-tech company.
